

## 24 V power supply for hatbrick and LED drivers (Mean Well LDD 700, 500, 350 mA)

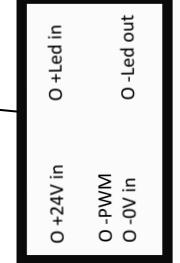

### 12 V power supply for PWM 1 and PWM 2 Ports

PWM Pins: 1(-) 2(+) 3(not connected) 4(PWM in)

Power 24 V 6 A DC

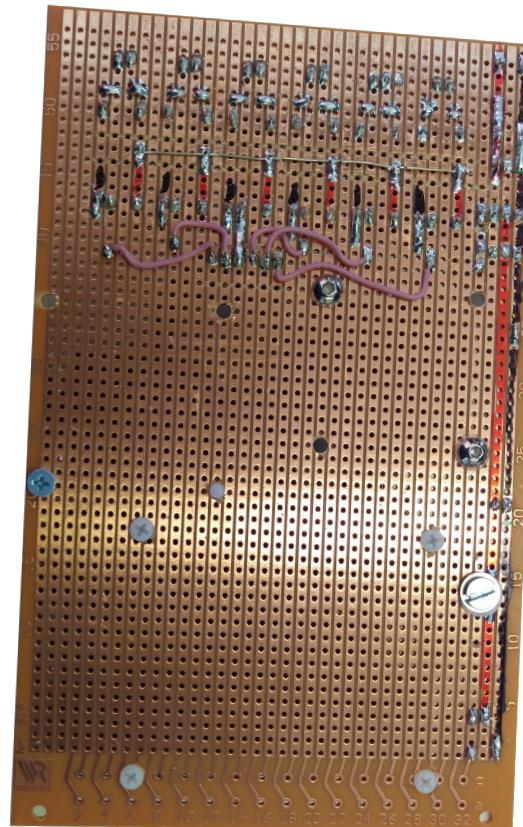

The setup can be bridged to be powered by using just the 12 V power supply

Led-Driver 700mA (4 times)

Led Driver 500mA (1 times)

Led Driver 350mA (1 times)
